

ADOPTION!

- 🐾 When you adopt a dog or a cat you are not only saving the life of the dog that you adopted, but you are also making space for another dog that needs to be rescued.
- 🐾 When you adopt you can really look for a dog or cat that suits you and your lifestyle.
- 🐾 When you adopt that means you are NOT supporting cruel backyard breeders. Backyard breeders or puppy mills are very very cruel and the parents of the cute puppies or kittens that people buy, suffer immensely and live a very sad life until they are not useful anymore.
- 🐾 When you buy, even when it's out of pity, you are supporting a terrible business to keep running.

THERE ARE NO BAD DOGS ONLY BAD OWNERS!

PEOPLE BUY A PUPPY, RUIN IT, THEN SAY IT'S A BAD DOG, THEN THE HUMANS DON'T WANT THE DOG ANYMORE.

#ADOPTDONTSHOP

When the buying stops the selling will also eventually stop!

ARE SHELTER DOGS "BROKEN" BECAUSE OF THAT THE REASON THEY WERE DUMPED AT THE SHELTER?

Well maybe in some cases yes, but what we all need to understand is that any unwanted behavior of your dog has been taught by HUMANS – it's as simple as that!

And the good thing with dogs is that all the bad things that they were conditioned to do at their previous home we can all "un-do" when the dog is being taught properly if we understand at least the basics of dog psychology and if we are willing to make an effort. All these are actually the reason dogs start to develop behavioral issues because of humans with a chronic lack of knowledge, effort and commitment.
